

Third Party Manufacturing

Prince Care Pharma Pvt Ltd

We have all the facilities for manufacturing of all of our products in a variety of packing under valid statutory licensed setup and with the conditions and system support like FDCA GMP.

Third Party Manufacturing under Neutral Code For Exports

As per the guideline of FDCA department, product can be manufactured by using Neutral Code number for the buyer of any other country. Usually, after product development and statutory approvals from the concerned department, Private labels can be designed according to requirement of the customer in any language. Materials are manufactured and can be shipped to any destination by required mode of transport. All the contract manufacturing activities are carried out under strict technical supervision.

Third Party Manufacturing for Domestic as well for Export

A product can also be manufactured for domestic as well as export parties with our name as Manufacturer and Marketed by Party Name.

Based on this...

1. We can manufacture our products in your brand name
2. We can provide packing and size variations in our product as per your requirements
3. We can amend product compositions as per your requirements within permissible limits.
4. We can also develop new product that belongs to our segment and its development possibility is within our existing infrastructure.
